Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

Daytime highs will begin a slow decline statewide this weekend. Temperatures will drop both Saturday and Sunday but still remain a few to several degrees above normal for mid-September. Most of the week next week, however, will see near or below normal temperatures. A plume of moisture will continue to stream in from the south-southeast from remnants of Hurricane Linda off the Baja California coast. This will lead to a chance of rain and widely scattered thunderstorms across much of Southern California with the heaviest rain possible on the coastal slopes.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

Exercise in Coastal Region:

- Urban Shield/Yellow Command - Urban Shield will be taking place 09/11/15 - 09/14/15, attached below is a link to the event schedule. The event is kicking off and ending at Alameda County Fairgrounds 4501 Pleasanton Avenue, Pleasanton.
- Multiple simultaneous scenarios at various locations throughout the Bay Area will test in the integrated response and situation mitigation of Local, State, and Federal public safety disciplines (fire, law enforcement, and EMS) and military assets. Final site preparations will take place on 09/11/15. Exercise scenario responses will take place beginning on 09/12/15 through 09/13/15. Tear down and rehab will take place on 09/14/15.
- Fire agencies will be focused on responses to Urban Search and Rescue, Swiftwater / Flood Search and Rescue, Canine Search, and HAZMAT situations
- (1) Cal OES Fire AC (5218) assigned to Red Area Command in San Jose as OES AREP for US&R, SF/S&R, and Canine.
- (1) DC (5206) assigned to Red Area Command in San Jose as OES AREP for HAZMAT.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A pattern change will develop this weekend as an approaching upper trough breaks down the ridge. This will bring seasonal temperatures back to northern California through early next week. There will be a slight chance for thunderstorms over the eastern mountains through the weekend and again on Monday as a couple of disturbances move through the area.

Medford Weather:

Mainly clear skies today in south central Oregon and northern California. An upper level trough moves onshore Monday with increasing southwesterly flow ahead of it. Models are indicating increased instability compared to the past several days, but are also indicating showers starting early with somewhat extensive cloud cover inhibiting heating, bringing the possibility of just a slight chance of thunderstorms Monday from the Mount Shasta area to the northeast and east. Models continue to be in very good agreement that a system on Wednesday will bring the first decent widespread rain and have upped the chance of precipitation a little more for this timeframe.

Reno Weather:

Above average temperatures will continue today with smoke and haze from large fires west of the sierra crest. Isolated to scattered showers and thunderstorms are possible today and Monday, with gusty winds and cooler temperatures Monday. Breezy and cool conditions with possible showers continue through mid week as low pressure systems move across the Pacific Northwest.

San Francisco Weather:

A weak disturbance offshore will maintain considerable cloud cover over the area today, and may produce isolated sprinkles. An upper trough will develop near the west coast early in the work week. This trough will hold inland temperatures below normal through the first half of the week and also result in rain chances at times, with the best chance of rain being in the North Bay on Wednesday and Wednesday evening. Dry weather will return by Thursday and warmer weather is forecast late in the week and into the weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Expect cooling this weekend with a slight chance of afternoon showers and thunderstorms over higher terrain. Expect additional cooling next week with a chance of rain at times, mainly over the mountains.

Hanford Weather:

Above average temperatures will continue today and then trend cooler to slightly below average by Tuesday. A weak low pressure system along with some tropical moisture will provide a slight chance of showers and thunderstorms over the mountains and desert through Sunday and extending into parts of the San Joaquin Valley on Monday and Tuesday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Expect fair skies today. A trough of low pressure will pass through the area Monday into Tuesday. This trough will bring cloudy skies and a chance of rain. Clearing and less humid conditions are forecast Wednesday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

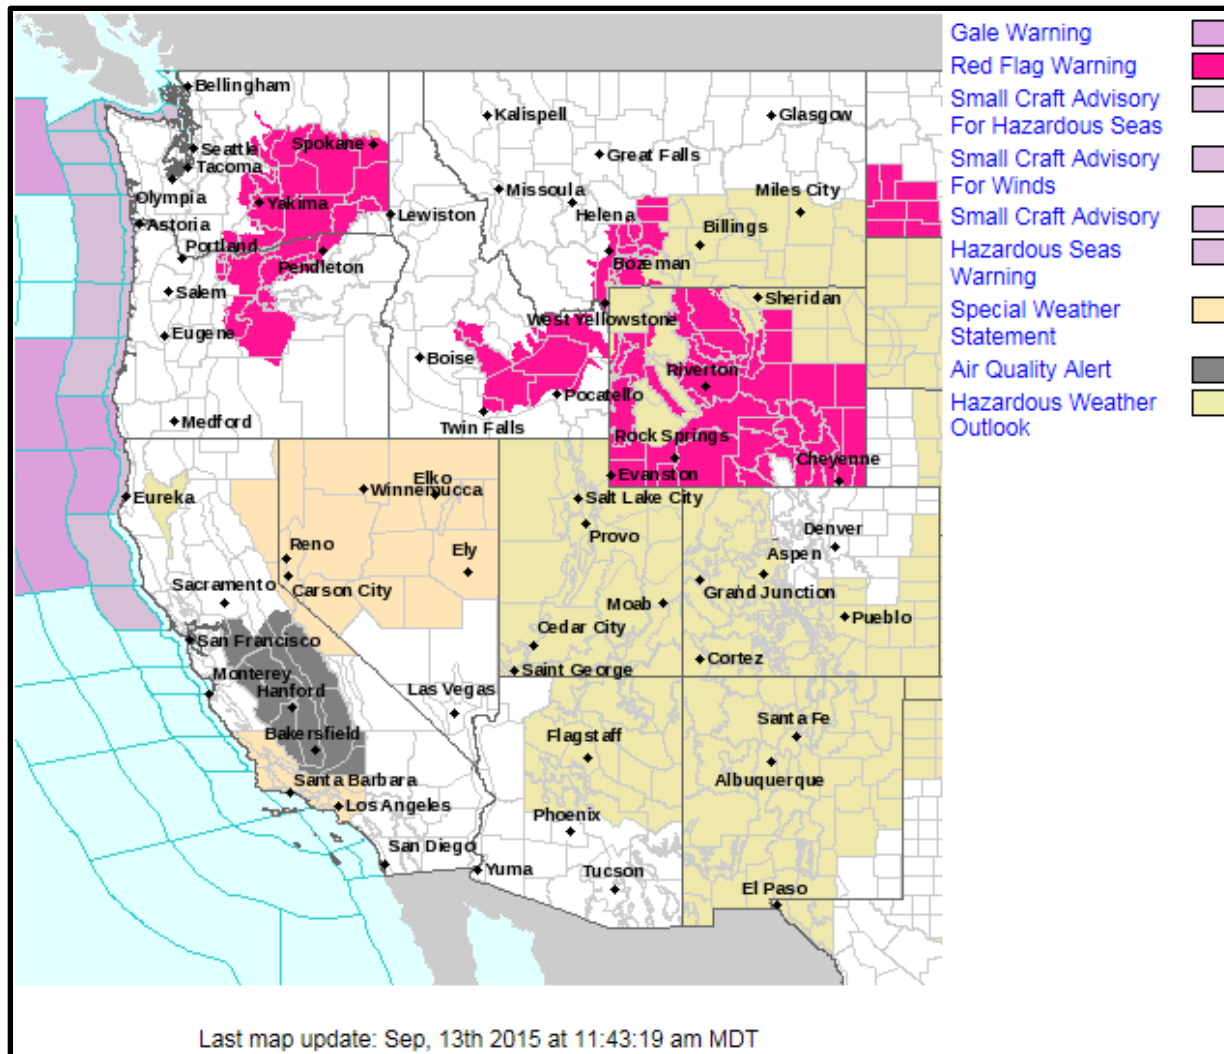

Drying will continue today with high temperatures a few degrees cooler in most areas except for the lower deserts. For Monday through early Wednesday, moisture from the remnants of former Hurricane Linda will bring periods of rain, most likely for Monday night and Tuesday, with the greater rainfall amounts most likely on the coastal mountain slopes. Drying and a warming trend will follow into next weekend.

Southeast California Weather:

Lingering moisture and instability will again result in clouds, showers and thunderstorms around the area today. A series of systems will sweep across the area from west to east between Monday and Wednesday and gradually help to dry the area out from west to east cutting back on the coverage of showers and thunderstorms each day. Dry conditions are then expected from Wednesday night through next weekend.

Access and Functional Needs/ Health and Medical

- American Legion Ambulance staffing 9 units (both Amador and Calaveras Counties). They have implemented emergency staffing through the incident. They will staff (9) 24 hour units through 09/11/15 and will staff 8 units 09/12 – 09/13/15.
- Per CDSS: Currently, there are 13 known community care licensing facilities impacted by the Butte Fire. The impact to these facilities has affected at least 132 clients. CDSS will continue to monitor the impact to these facilities as well as any other facilities that become impacted by the ongoing fires.
- Per Medical Health Operational Area Coordinator, Calaveras, Region IV. Mark Twain Medical Center (MTMC): Transferring 7 patients to outlying facilities due to poor air quality within the facility. All transfers to be performed by American Legion with no assistance needed. There was an HVAC malfunction which allowed outside air to be circulated within the facility. Problem mitigated and new filters installed. Air quality has improved significantly over the 2 hours since the mitigation. After the transfer of these 7 patients, the MTMC census of Admitted patients will be 0 (zero). Facility remains open to traffic with all services available. No significant Emergency Department visits due to respiratory problems
- Calaveras County: Avalon Health Care San Andreas (Skilled Nursing Facility): Update on 9/12/15 at 1201 hours from Region IV MHOAC (designee). Air quality remains good. Met with the site manager and the facility has no immediate needs. The facility transferred 12 at-risk patients yesterday leaving the current census of 71. Resources are available if evacuation is necessary. Site maintenance had procured 10 additional HEPA filters which should be on-site 9/12/15.
- Mark Twain Medical Center (MTMC): Update 9/12/15 1201 hours from Medical Health Operational Area Coordinator, Calaveras, Region IV. Transferring 7 patients to outlying facilities due to poor air quality within the facility. All transfers to be performed by American Legion with no assistance needed. There was an HVAC malfunction which allowed outside air to be circulated within the facility. Problem mitigated and new filters installed. Air quality has improved significantly over the 2 hours since the mitigation. After the transfer of these 7 patients, the MTMC census of Admitted patients will be 0 (zero). Facility remains open to traffic with all services available. No significant Emergency Department visits due to respiratory problems.
- Amador County: Sutter Amador Hospital (General Acute Care Hospital): Update 9/11/15 2030 hours from MHOAC, (designee) Region IV Fire continues to impact the region with widespread growth affecting air quality. No issue or immediate need at the moment. Hospital environment safe and no complaints of increase in respiratory issues. Air quality inside the hospital is good. They are prepared for evacuation if needed and continue to maintain their census by acuity. All clinical units are open. Only emergency surgeries are being performed with 2 scheduled for Saturday. There is concern about staff and their families who have been evacuated. EAP services have been brought in for employees and their families. Hospital ICS continues to operate with regular updates. Expecting shipment of Albuterol tomorrow to pharmacy.
- 09/13/15 at 0800 hours, Calaveras County continues to perform welfare checks on known persons that have access and functional needs in the West Point and Railroad Flat areas.

SITUATION SUMMARY

FIRES, NORTHERN OPERATIONS AREA

Butte, Vegetation Fire, Amador and Calaveras County

Infrastructure

- Per Cal EPA EF 10 Coordinator as of 14:00, 9/11/2015:
 - SWRCB Division of Drinking Water reached out to local engineers in Calaveras County and determined that the current water system issues were all power related. Portable power is being used to address the issues.
- Per CUEA at 0900 hours on 09/13/15, Butte Fire power outage at 5,300, major transmission and distribution rebuild underway.
 - No impact to PG&E Hydro Generation.
 - All five cell towers impacted presently on full portable generation.
 - East Bay Municipal Utilities District reporting no impact to their water system.
- Per Cal OES Public Safety Communications: The communications site Sierra Vista has burned over due to the Butte Fire. State agencies who are in that site are CALFIRE, Department of Transportation (DOT) and California Highway Patrol (CHP). A technician responded to the site to assess the damage.
 - Phone lines and power are down.
 - CALFIRE has a portable repeater being installed at the site. CALFIRE is operational.
 - CHP is using coverage of other sites. CHP is down because the repeater is phone line controlled.
 - DOT is operational.
- Per Cal OES Public Safety Communications: CAL-Fire TCU headquarters in San Andreas is currently being evacuated. PSC has a shop located within that facility. PSC technicians were evacuated out of the facility. A snowcat assigned to the facility was towed out and the test equipment was also removed by the technicians.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There are seven CIP identified, state-level, critical infrastructure sites that meet the draft criteria and are within 10 miles of the fire – Amador County EOC, their Department of Public Health mail office, Calaveras County EOC, their Department of Public Health main office, the origin of the Mokelumne Aqueduct, the Pardee Dam and Reservoir, and the Jackson Creek Spillway and Dam. The buildings are vulnerable to fire but the two dams and aqueduct are generally less vulnerable to fire. Other infrastructure noted in the 10 mile radius are multiple PSC communications towers, 5 hydro power plants (99, 14, 4.5, 1.4, .23MW), multiple associated substations, multiple transmission lines (230, 115, 80, 60kV, +), and two natural gas lines (12 and 10 inch).

SITUATION SUMMARY

FIRES, NORTHERN OPERATIONS AREA

Butte, Vegetation Fire, Amador and Calaveras County

Missions

- Mission # 2015-LAW-15806. 15 single person patrol cars are requested to assist with evacuations for the town of Mokelumne Hill
- Mission # 2015-IREOC-15822. Air Resources Board will provide 3 air monitors at the request of Amador County Air Pollution Control Officer to be placed in 3 locations: Sutter Creek Elementary School, 340 Spanish St., Sutter Creek, 95685; ACES Waste Services, 19801 Berry St., Pine Grove, CA 95665; and County Admin. Ctr. 810 Court St., Jackson Ca, 95642.
- Mission # 2015-IREOC-15818. 6 air monitors for the Calaveras Environmental Health who will coordinate locations with ARB. Currently, only two are available. One will be placed at Mountain Ranch Volunteer Station, 8041 Washington Street and one will be placed at Calaveras Consolidated Fire Department, 129 Hwy 12, Valley Springs.
- Mission # 2015-IREOC-15857. Portable Repeater 1 of the Calaveras Repeaters has lost power and is in accessible due to the Fire. Calaveras County needs a repeater to bump communications up to the level prior as impacts have created spotty communications Law enforcement and Ambulance personnel are having very difficult time speaking to each other. The repeater was delivered to the Calaveras EOC and placement will be dependent on the fire behavior.
- EMMA Request Pending for 3 Eldorado County personnel to assist at the Amador County Animal Shelter. Amador County is further coordinating 2 additional staff that is enroute from Sacramento County.
- MIGU-4 has been requested to provide OASIS support for the Butte Fire, CA-AEU-024918, E-644 and will be at the Amador Fairgrounds, 18621 Sherwood St., Plymouth, CA 95669.
- Per the CalEPA EF10 Coordinator as of 14:00 hours, 9/11/2015, Calaveras County Environmental Manager, Jason Boetzer, requested that CalEPA work with the county on coordinating eventual cleanup activities.
- Department of Toxic Substances Control (DTSC) was requested to lean forward to the county to provide information and guidance. CalRecycle was requested to lean forward to provide similar information.
- CalRecycle is currently not able to do this because they are actively managing two geographically separate wildland fire cleanup activities. CalRecycle management has been notified.

SITUATION SUMMARY

FIRES, NORTHERN OPERATIONS AREA

Valley, Vegetation Fire, Lake and Napa County

Health and Medical

- Per EMSA: The hospitals are functioning. St. Helena Hospital Clear Lake has up staffed its Emergency Department to move people through more quickly. They have treated one burn victim that did not require transfer. They are modifying their IFT priorities to save the IFTs for fire-related cases that may be more critical. Several staff members have evacuated or even lost homes. They are setting up an area for staff housing in their clinic. The CEO and CFO have evacuated from their homes and are sleeping on cots at the hospital. Staff are psychologically quite impacted, but they are still open for business.
- Per CDPH: there are no CDPH Licensed healthcare facilities in the Hidden Valley Lake area. The nearest facility is Clearlake.

Access and Functional Needs

- CDSS is monitoring and FAST teams will be deployed if needs are identified. UPDATE: At 0134 hours on 09/13/15, CDSS advised it was established that the FAST will not be deployed at this time for the Calistoga Shelter. Confirmation was received from inside the shelter that there is currently no unmet needs of current shelter residents with disabilities or access and functional needs. State FAST Members and County FAST Coordinators are aware of the potential that they may need to deploy.

Infrastructure

- Per CUEA: Valley/Lake & Napa, 5,300 out of service with major local pole and cable damage. No impact to Gas system. PG&E has opened their corporate EOC in San Francisco to support these fires. 3 cell towers are off line due to the power situation, no access to them presently. Limited impact to cell service at this time.
- Per PSC: AT&T is reporting a remote isolation in Cobb Mountain, Lake County. The remote switch serves 1531 ATNs. AT&T is gathering further information and will send as available. The area is under mandatory evacuations due to the Valley Fire. Based on the information received, splicers are unable to access the area due to the fire and evacuations. Affected NPA-NXX is 707-928, serving PSAP is Lake County Sheriff.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There is no CIP-identified state-critical infrastructure within ten miles of the current fire area. There are ten PG&E geothermal power plants ranging in capacity from 22MW-120MW within one mile of the current burn area, as well as their associated substations and transmission lines. Additionally there are five Public Safety Communications (PSC) tower sites within one mile of the current burn area. This information is locational only.
